

## LED RAIL LIGHT SERIES – HIGH POWER, WATERPROOF & VIBRATION RESISTANT

### LED Rail Light

- This series of the lights feature rotating function to adjust the light to any desired direction, reinforced plastic end mount tightly holds the light in place
- Aluminum extrusion rail, painted Black color
- Frosted plastic lens with featured lens pattern to enhance uniform lighting distribution
- Circuit board coated with conformal coating to resist moisture, corrosion and vibration
- Lighting color available in Cool White, optional Warm White color or Nav. version (red night vision) of White/Red LED configuration available by special order
- Color Temperature: Warm White=4,000~4,500K, Cool White=7,000~8,000K
- Super bright 5mm LED, long life span up to 100,000hours
- Rated for 12V, tested to 13.8V
- Also available in 24V version (special order only – minimum may apply)
